

# CHARITY-HALL,

HULL, 3d June, 1799.

THE following List of the persons who receive *weekly allowances* out of the Poor-rates in HULL, is published by order of the Governor and Guardians of the Poor.

THERE is reason to fear that much of the money which is paid out of the Workhouse, is spent in spirituous liquors, and in other ways alike destructive of industry and morality, and it is requested of the inhabitants of the Town, that such information of the characters of the persons mentioned in this list, may be given to Mr. Chandler, the Clerk of the Workhouse, as may enable the Governor and Guardians to discriminate between the idle and the industrious, and between those who are entitled by real indigence to receive parochial relief, and those who by false pretences of poverty defraud the Town.

It is hoped that the *weekly pensions* may be greatly reduced at this season of the year, without the least injury to the industrious, honest Poor, as in general, the expences of living are much less, and work is much more abundant in summer than in winter.

It is hoped that the *weekly pensions* may be greatly reduced at this season of the year, without the least injury to the industrious, honest Poor, as in general, the expences of living are much less, and work is much more abundant in summer than in winter.
